

40 Time to Talk

1. What is the **biggest** two digit number you can make? What is the **smallest** two digit number you can make?
2. How many hours do we spend at school?
Two analog clocks are shown side-by-side. The left clock shows approximately 10:10 and the right clock shows approximately 1:50.
3. Look at non-fiction books. What do the title, contents and glossary tell us about?
4. Look around your house. What do you move using a push or a pull force?
